A Summary

A.1 Status

V&V Scientist	Jen Lauer
V&V Date (YYYY-MM-DD)	2009.02.05
V&V Edition	1
V&V Disposition and Status	OK
V&V Charge Time	47.596

A.2 Comments

Fid in slot two is not used in the aspect solution. The large offsets of the other two fidlights are due to the next_in_line configuration of the detector. Window constraint met. Charge time for this ObsId remains at previous value of 47.596 ks. Charge time was allocated on the basis of total event collection time between this and the accompany ACIS part of the observation.

This obsid was reprocessed to correct minor errors in parameters used in processing. Some of these parameters cannot be determined automatically for this observation and were derived from spacecraft telemetry.
