## Comments

No fid lights were used during this observation, so there is no Good Time Interval. As a result, there are no Level 2 events. However, the Level 1 event energy data are good. The aspect solution is compromised. Charge time for this ObsId remains at original value of 1.295 ks, although with the current processing the charge time would have been 0 ksec. The Charge Time is based on the Level 1 event data.
