Comments

The location of the source was tweaked to be (RA_TARG,DEC_TARG) = (118.92697,-29.56490) because a comparison of the location of the source in this continuous-clocking mode observation with the location of the source in the continuous-clocking mode observation 18014 of the same source indicates that the coordinates (118.92697,-29.56490) are more accurate (i.e. to within about a pixel) than the coordinates used for obs_id 18014.
