

V&V Summary Report

L2 ASCDS Version : 7.6.9

Observation 2417 - L2 Version 001
Chandra X-Ray Center

L2 Processing Date : Dec 8 2006

See axaff02417N001_VV001_vvref2.pdf for the full report

V&V Scientist	Joy Nichols
V&V Date (YYYY-MM-DD)	2007.01.11
V&V Edition	1
V&V Disposition and Status	OK
V&V Charge Time	52.094

Comments

Roll constraint met. Roll angle has been selected such that images A and B of the lensed quasar are appropriately aligned to maximize the separation of the two dispersed spectra. Zeroth order position is positioned between images A and B for the spectral extract of this data processing. The -20 arcsec offset allows the zero order of PKS1830-211 to fall only on amp 1 of CCD S3.
