## Comments

HRC shutter location and focus test.=====

All 3 fid lights are blocked by the HRC shutter. There is no explicit boresight alignment information without fid light data. Also, guide star data for slot 6 was not planned for this observation.

=====

There is not GTI time for this observation because of the lack of fid light data. Therefore there are no Level 2 events.

=====

Charge time for this ObsId remains at original value of 3.0 ks, although with the current processing the charge time would have been 0.0 ksec.
